OBJECTIVE

Dynamic and aspiring Full-Stack and Mobile Developer pursuing a B.E. in Computer Science and Engineering, with strong proficiency in Flutter, Dart, and JavaScript. Experienced in developing responsive, cross-platform mobile applications and robust web solutions using the MERN stack. Passionate about bridging the gap between intuitive front-end UI/UX design and scalable back-end architecture to deliver impactful, user-centric products.

EDUCATION

B.E. Computer Science and Engineering

Dr. N.G.P. Institute of Technology, Coimbatore, Tamil Nadu | Pursuing (Expected Graduation: 2028)

Current CGPA: 6.5 | **Clean Academic Record (No Standing Arrears)**

Diploma in Computer Networking

PSG Polytechnic College, Coimbatore, Tamil Nadu | Graduated: 2025

Percentage: 80%

10th Grade (SSLC)

Chandra Matric Hr. Sec. School, Coimbatore, Tamil Nadu | Passed: 2022

Marks Secured: 399/500 (79.8%)

TECHNICAL SKILLS

Languages: JavaScript, Dart, C++, HTML/CSS

Frameworks & Libraries: Flutter, React.js, Node.js, Express.js, Flask

Databases: MongoDB, SQL, Google Firebase

Tools & Platforms: Git, VS Code, Arduino

EXPERIENCE & INTERSHIPS

MERN Stack Intern | Live Stream Technologies

May 2026

- Completed hands-on intensive training in full-stack web development utilizing MongoDB, Express.js, React, and Node.js.
- Gained foundational knowledge in building robust backend architectures and bridging database models to dynamic front-end user interfaces.
- Strengthened understanding of full-stack API integration and server-side development for web applications.

Flutter Intern | App Innovation Foundation

May 2024 – June 2024

- Contributed to mobile application development workflows using the Flutter framework and Dart programming language.
- Collaborated with team members to implement critical user interface widgets and application state architecture.
- Gained hands-on professional environment experience, coordinating tasks and aligning code changes via version control systems.

KEY ACHIEVEMENTS & PROJECTS

Automated Poultry Farm (Patented)

Diploma Final Year Project | Flutter, Dart, Firebase, Arduino

- **Key Achievement:** Secured a formal patent for the IoT and mobile application solution that automates and monitors poultry farm environmental conditions.
- Integrated Arduino sensors to track real-time soil moisture, humidity, ammonia levels, and temperature, displaying data on a custom Flutter-built environmental dashboard.
- Automated environmental controls by triggering cooling fans or heat lights when temperature readings exceeded established thresholds, alongside real-time alert notifications.
- Implemented an AI vision model capable of detecting specific chicken diseases from user-captured images, drastically improving farm health management.

"Peter England" E-Commerce Mobile Application

Internship Project | App Innovation Foundation | Flutter, Dart, Google Firebase

- Developed an e-commerce platform interface tailored for mobile retail experiences.
- Engineered secure user authentication flows, incorporating Google Mail integration and automated SMS code verification for login security.
- Designed responsive UI layouts and implemented interactive front-end components, including custom animated app logos.
- Utilized advanced state management practices and widget tree manipulation to deliver smooth navigation transitions.

Voice-Controlled Personal Finance Tracker (Fintech)

Flask, MongoDB, GPT-4o Mini

- Built a comprehensive fintech mobile application focused on hands-free financial management.
- Developed voice-driven transaction entry capabilities and an SMS parsing system for automatic expense detection and logging.
- Engineered an interactive analytics dashboard with full CRUD capabilities and real-time budget alert notifications.
- Integrated GPT-4o Mini to function as a personalized AI financial coach, delivering customized advice based on the user's balance, risk tolerance, and historical spending patterns.

Movie Review Website

Web Development

- Developed a dynamic web-based platform allowing users to browse, read, and submit reviews for various films.
- Focused on intuitive user interface design and responsive layout implementation to ensure accessibility across desktop and mobile browsers.
